

DIVERSE POWER 'S TOUCHSTONE ENERGY IMPROVED HOME PROGRAM

INDIVIDUAL MEASURES (CUSTOMER MAY QUALIFY FOR MULTIPLE REBATES)

HEAT PUMPS

Electric to Electric Change-out **13 SEER** **\$100** **≥15 SEER** **\$200**

Electric heat pump replacing existing heat pump, electric resistance heat or wood heat.

Electric replacing gas heat **13 SEER** **\$300** **≥15 SEER** **\$400**

Electric heat pump replacing natural gas, propane gas or oil heat as the primary heating system.

Dual fuel heat pump **13 SEER** **\$250** **≥15 SEER** **\$300**

Dual fuel heat pump replacing electric heat pump, electric resistance heat, wood heat, natural gas heat, propane gas heat, or oil heat as the primary heating system.

Geothermal heat pump **\$250.00 / ton**

A certified geothermal dealer must do geothermal system replacing any type of system and installation.

WATER HEATERS

Electric to Electric Change-out **\$75 per unit / \$150 if Marathon® / GE Hybrid**

Electric water heater replacing existing electric water heater.

Electric replacing gas **\$300 per unit / \$500 if Marathon® / GE Hybrid**

Electric water heater replacing gas water heater.

Waste Heat Recovery Unit **\$250.00 / house**

Waste heat recovery system installed on an existing electric water heater. Only one rebate per home is permitted, even if there are multiple systems installed.

THERMOSTATS

Programmable thermostat with adaptive recovery **\$25**

INSULATION

Bring attic insulation up to R-38 level **\$300**

DIVERSE POWER 'S TOUCHSTONE ENERGY IMPROVED HOME PROGRAM

WHOLE HOUSE MEASURES (ALL MEASURES MUST BE MET OR EXCEEDED)

TOTAL LEAKAGE REDUCTION (DUCTS/HOUSE COMBINED)

Reduce leakage by	> 20%	\$600
Reduce leakage by	> 25%	\$800
Reduce leakage by	> 30%	\$1,000

Blower door and duct leakage tests must be performed and results forwarded to DPI prior to any measures or improvements being considered for reimbursement. Failure to do so will result in disqualification from whole house improvement rebates.
