DIVERSE POWER 'S TOUCHSTONE ENERGY IMPROVED HOME PROGRAM

INDIVIDUAL MEASURES (CUSTOMER MAY QUALIFY FOR MULTIPLE REBATES)					
HEAT PUMPS					
Electric to Electric Change-out	14 SEER	\$100	<u>></u> 15 SEER	\$200	
Electric heat pump replacing existing heat pump, electr	ic resistance heat or	r wood he	at.		
et al de la de de la de la de	446555	ć200		<i></i>	
Electric replacing gas heat	14 SEER	-	<u>></u> 15 SEER	\$400	
Electric heat pump replacing natural gas, propane gas o system.	or oll neat as the pri	mary near	ing		
system.					
Dual fuel heat pump	14 SEER	\$250	<u>></u> 15 SEER	\$300	
Dual fuel heat pump replacing electric heat pump, election	tric resistance heat,	wood			
heat, natural gas heat, propane gas heat, or oil heat as	the primary heating	system.			
Geothermal heat pump \$250.00 / ton					
A certified geothermal dealer must do gerthermal syste	em replacing any typ	e of syste	em and		
installation.					
WATER HEATERS					
WATER HEATERS Electric to Electric Change-out	\$75 per unit /	\$150 if	Marathon [®] /	GE Hybrid	
	-	\$150 if	Marathon [®] /	GE Hybrid	
Electric to Electric Change-out Electric water heater replacing existing electric water h	eater.

DIVERSE POWER 'S TOUCHSTONE ENERGY IMPROVED HOME PROGRAM

WHOLE HOUSE MEASURES (ALL MEASURES MUST BE MET OR EXCEEDED)				
TOTAL LEAKAGE REDUCTION (DUCTS/HOUSE COMBINED)				
Reduce leakage by	> 20%	\$600		
Reduce leakage by	> 25%	\$800		
Reduce leakage by	> 30%	\$1,000		

Blower door and duct leakage tests must be performed and results forwarded to DPI prior to any measures or improvements being considered for reimbursement. Failure to do so will result in disqualification from whole house improvement rebates.
