

Application for Photovoltaic Rebate Program

This application should be completed and returned to the Photovoltaic Rebate Program Manager (PM). The PM will review the rebate application and notify the customer in writing whether the rebate application has been accepted and the rebate funding reserved for the customer. **Only residential members will qualify for rebates.** Customers MUST NOT OPERATE their photovoltaic system in parallel with Diverse Power, Inc.'s distribution system until they have received written authorization for parallel operation from Diverse Power. Unauthorized parallel operation of customer's photovoltaic system could result in injury to persons and/or damage to equipment or property.
