Diverse Power offers members environmentally friendly green power through Green Power EMC, which is comprised of Diverse Power and 37 other electric cooperatives. Diverse Power's Green Power Program is certified by Green-e Energy\*.

As a part of Diverse Power's on-going commitment to help preserve and protect our environment, we are proud to offer alternative sources of environmentally friendly energy. Today, these alternative sources of energy are commonly referred to as "Green Power". By utilizing these natural methods, as well as the bi-product methods, we are able to lessen the impact that conventional means of producing electricity has on the environment. However, producing electricity by utilizing the green methods mentioned above is more expensive than conventional methods such as nuclear, coal or natural gas.

#### *What Does it Mean to be Green-e Energy Certified?*

Our program is Green-e Energy Certified by the Center for Resource Solutions (CRS). Green-e Energy Certified is the nation's leading independent consumer protection program for the sale of renewable energy and greenhouse gas reductions in the retail market. The certification and verification of a renewable energy program is essential so that consumers can be certain the renewable energy they purchase meets the highest of standards.

\* For more information regarding the Green-e Certified Product, please see the attached 2023 Product Content Label and Price, Terms and Conditions.

## COOPERATIVE BIOMASS PRODUCT CONTENT LABEL

The product is sold in blocks of 75 kilowatt-hours (kWh). The product will be made up of the following renewable resources.

Green-e Energy Certified New <sup>3</sup> Renewables in Diverse Power Green Power Program			Generation Location
	2022 <sup>1</sup> Historical	2023 <sup>2</sup> Prospective	
-Biomass	100%	100%	Georgia
-Geothermal	0%	0%	
-Eligible hydroelectric	0%	0%	
-Solar	0%	0%	
-Wind	0%	0%	
<b>TOTAL</b>	<b>100%</b>	<b>100%</b>	

## COOPERATIVE SOLAR PRODUCT CONTENT LABEL

The product is sold in blocks of **1.25 kilowatt** (kW). The product will be made up of the following renewable resources.

Green-e Energy Certified New <sup>3</sup> Renewables in Diverse Power Green Power Program			Generation Location
	2022 <sup>1</sup> Historical	2023 <sup>2</sup> Prospective	
-Biomass	0%	0%	
-Geothermal	0%	0%	
-Eligible hydroelectric	0%	0%

<b>TOTAL</b>	<b>100%</b>	<b>100%</b>	

1. The 2022 figures reflect the resources that were supplied for the year ending December 31, 2022.
  2. The 2023 figures are prospective and reflect the power that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.
  3. New Renewables come from generation facilities that first began commercial operation within the past 15 years. This product includes generation from a facility that began commercial operation within the past 15 years or is approved for extended use by Green-e Energy.
- For comparison, the current 2023 mix of resources supplying Diverse Power includes: Coal (7%), Nuclear (24%), Oil (0%), Natural Gas (64%), Hydroelectric (5%), and Other (0%).

The average home in the United States uses 886 kWh per month. [Source: U.S. EIA, 2021]

<b>Total:</b>	<b>\$ 114.72</b>								
	<p>The existing rate structure for your Diverse Power Green Power service is presently fixed and determined by Board action. Many factors control this cost however we feel it will only change when contract conditions change or new, more costly, renewable resources are added to the program and we must adjust the price to account for the increased price of the new generation.</p>								
What sources will be used in my certified product?	<p>Please refer to the Product Content Label below.</p>								
If I want to terminate this agreement/contract, what is the early termination fee?	<p>There is no cost associated with terminating participation in Diverse Power's Green Power program.</p>								
What length of agreement/contract is required?	<p>No contract or re-enrollment is required. You will remain enrolled in Diverse Power's Green Power program until you terminate your participation by notifying Diverse Power.</p>								
What other fees might I be charged for?	<p>There are no other fees associated with participation in Diverse Power's Green Power program.</p>
