Electric Vehicle Rebates

Thank you for your interest in our **Electric Vehicle Rebate** programs. Diverse Power offers incentives to member consumers that drive and operate an **Electric Vehicle (EV)** on a daily basis. Our rebates are intended to offset the out of pocket expenses related to ownership of an **EV**. In order to qualify for these incentives, you must own an EV (hybrid cars do not qualify for this program) and all equipment must be verified. Please complete the following information and return it to our office. Once this information is received, your rebate will be processed.

Please select the type of work performed:

"Drive Free for A Year" **\$26.00 a month per vehicle**
Must own an EV (Hybrids do not qualify) and must have at least one Level II charger per EV.
\$26.00 **credit** per vehicle for one year on members account.

Level II Charger **\$250.00 per charger**
Customer must purchase/own a Level II charger to qualify. Rebate check will be mailed once unit/units are verified.

NEMA 14-50 or 14-30 Outlet installed **\$50.00 per outlet**
Customer must install a dedicated outlet for a Level II charger. Rebate will be based on number of chargers/outlets customer has verified.

Member Name _____

Address _____

City, State, Zip Code _____

Phone Number _____ Signature _____

Account Number _____ Location Number _____

Type EV _____ Year _____

Type Charger _____ No of Chargers _____

Type Outlet _____ No of outlets _____

1. All rebate requests must be submitted for installations that have been completed and verified.
2. Hybrid vehicles are **not eligible** for this program.
3. Member must own/install a Level II charger per personal use electric vehicle (EV) to qualify for the Drive Free for A Year credit.
4. Outlet rebate can be collected separate from any other rebate.
5. RESIDENTIAL members only eligible for these programs.
